MANY PERSONS SLAIN

Serious Rioting Occurs in the Portuguese Capital.

DUE TO THE KING'S ACTION

Dismissal of Parliament Followed by a Furious Riot—Cavalry Charges the Mob and Infantry Fires into It. Spirit of Revolt Is Widespread.

London, June 22.—Dispatches from Lisbon via Madrid to the Daily Mail report that serious rioting has occurred in the Portuguese capital, in which many persons were shot down by soldiers. The dispatch is undated, but the riot referred to is one that was reported two or three days ago as a rather insignificant affair. The trouble, which grew out of the act of the king in dismissing parliament and instituting a government by decree, occurred on the return to Lisbon of Senor Franco, the premier, who had made a journey to Oporto in the hope of securing a popular endorsement of his policy. A furious riot, it is stated, occurred outside the railroad station in Lisbon during which the cavalry charged the mob and the infantry fired into it.

A neighboring square was filled with the dead and injured laid out in rows. Most of the injured were shot in the legs as the troops fired low.

The people fought with stones and held their ground bravely for hours. Women with their aprons filled with stones supplied the men with the missiles and urged them on. The dispatches say that on Thursday there was public mourning for the dead. Thursday night there was a renewal of the trouble and the troops again fired on the people, injuring many of them.

The situation is reported as grave, as the spirit of revolt is widespread. A censorship is said to have been established.

MEASURE IS RADICAL.

Public Utility Bill Passed by Wisconsin Legislature.

Madison, Wis., June 22.—The public utility bill passed by the legislature Friday is the most radical lawmaking step taken during this session of the legislature. The measure had little opposition, except from municipal ownership advocates, who objected to the provisions that municipally-owned public utilities should be conducted under the same style of books that corporations are forced to adopt. The municipal ownership advocates fought this provision hard, but it was adopted despite the claims that it will make municipal ownership impossible in Wisconsin by exposing the extravagance to which city-owned concerns are subject.

The present bill provides in the first place that all concerns, private or public, supplying water, electric light or any other such convenience to the people must be operated under a set of books which show the allowance for depreciation and other such details. Municipal plants must make allowance for the tax paid by private concerns in making rates for service and such rates must be sufficient to continue the concern on a profit-paying basis.

All the corporations included in the act are under the control of the railway commission and the bill includes every public utility except electric railways.

The bill gives the railway commission power to fix rates for all service by public utility corporations and all franchises now existant are made exclusive.

He—Are you musical? She—I play the piano. He—Well, that's not an absolute denial.—Pick-Me-Up.

CONSPIRACY CHARGED.

Injunctions Issued Against Railroads and Warehouse Concerns.

Chicago, June 22.—Temporary injunctions were secured by the Chicago Board of Trade restraining three railroad companies and several firms and individuals from ceasing to operate as public warehouses eight grain elevators controlled by them. The injunctions were issued by Judge Windes in the circuit court as the result of three suits charging that the defendants have entered into a conspiracy to obtain a monopoly of the Chicago grain trade. Those named as defendants are: Chicago, Burlington and Quincy Railroad company; Chicago, Rock Island and Pacific Railroad company; Illinois Central Railroad company; Armour Elevator company; Armour Grain company; Bartlett, Frazier & Carrington; Rosenbaum & Co.; J. Rosenbaum; W. T. Carrington; W. H. Bartlett; W. P. Frazier; G. M. Patten; J. N. Patten; H. J. Patten; C. B. Pierce; J. P. Grier; W. F. Zeller and the First Trust and Savings bank.

It is charged in the complaint that the proprietors of the elevators in question store their own grain in their own elevators and there mix it with the grain of others and that all have entered into an agreement to act in concert.

The defendants are declared to have agreed to co-operate to prevent shippers, dealers and receivers of grain in Chicago from securing a sufficient number of public elevators to meet the demands of the grain trade unless they are permitted to continue to store and mix in their own elevators in violation of an injunction of the Illinois supreme court. The elevators involved have a capacity of 21,000,000 bushels.

TURKEY GRANTS DEMANDS

Gives Satisfaction to the United States Embassy.

Constantinople, June 22.—The porte has addressed a communication to the American embassy here giving satisfaction in the case of the last outstanding question between the embassy and the porte and thus removing the final obstacle in the way of American adhesion to the 3 per cent customs increase.

Mr. Leishman later notified the porte of the adhesion of the United States to the increase in customs.

Ambassador Leishman visited the porte after two months' abstention and he attended the selamluk, after which he was received in audience by the sultan.

Washington, June 22.—Gratification was expressed at the state department at the report from Constantinople to the effect that Ambassador Leishman had at last succeeded in settling the one question between the embassy and the porte that remained of six open issues. Although negotiations were initiated for the settlement of these questions many years ago, not one of them was finally settled until Ambassador Leishman undertook their adjustment.

MINERS' CONVENTION.

Adopts Part of Proposed New Preamble of the Constitution.

Denver, June 22.—The convention of the Western Federation of Miners adopted the first five sections of the proposed new preamble of the constitution and laid the sixth section on the table.

This section is designed to make the federation the mining department of the Industrial Workers of the World. The fifth section of the preamble is considered to pledge the Federation to socialism. It reads:

"We hold that industrial union and the concerted political action of all wage workers is the only method of attaining this end," referring to the "emancipation" of the working classes.

The new preamble is still to be adopted as a whole and will then go to a referendum vote before it is finally incorporated in the constitution.

Thomas Booher of Butte No. 1, who spoke Thursday disparagingly of the American flag, apologized for his remarks, saying they were made in the heat of the debate and did not in any way express his feelings.

GRAND AMERICAN HANDICAP

J. J. Blanks of Tennessee Captures the Event at Chicago.

Chicago, June 22.—J. J. Blanks of Trezevant, Tenn., won the Grand American Handicap shoot, making a total of 18 in the shoot-off at 20 targets. Miles J. Marryott of Fort Collins, Colo., was second with a score of 17. C. M. Powers, Decatur, Ill., was third with 15. The trio had tied at 96 in the early stages of the shoot.

W. R. Crosby of Decatur, Ill., won the professional championship from Fred Gilbert of Spirit Lake, Ia., after the pair had shot down 55 competitors, all contesting from the 18-yard mark. Crosby broke 192 and Gilbert 190 out of a possible 200. The national amateur title was won by Hugh M. Clark of Urbana, Ill., making a total of 188 out of a possible 200.

MOTION OVERRULED

Court Refuses to Order Jury to Acquit Haywood.

STATE CLOSES ITS CASE

Defense Then Vainly Endeavors to Obtain an Acquittal—Counsel for the Defendant Will Present Their First Testimony on Monday.

Boise, Ida., June 22.—When the state closed its case against William D. Haywood, charged with the murder of Frank Steunenberg, the defense made an unsuccessful attempt to secure from the court an order directing the jury to acquit the prisoner. Judge Wood's ruling, which requires the defense to meet with evidence the case that the state has presented, was made at 5:15 o'clock Friday, and it was then arranged that Haywood's counsel should make the opening statement and present their first testimony on Monday next.

When the trial opened Friday morning it was stipulated that the record should show that the date of the draft sent by Haywood to Jack Simpkins late in 1905 was Dec. 21 and after that the prosecution proceeded to show by a handwriting expert that George Pettibone, using the names of "J. Wolf" and "P. Bone," made two remittances of money to Harry Orchard at San Francisco through the Pacific Postal Telegraph company in the fall of 1904.

The state next called Jim Seaborn, a colored horse trader, who swore that he sold a horse and buggy to Orchard in Denver in 1905 and identified Haywood as one of the men who rode with Orchard. After that the defense admitted that in June, 1903, Haywood sent \$75 to Steve Adams at Ogden and when the necessary showing had been made on the record the prosecution formally rested.

The motion for an instruction to the jury to acquit was by agreement presented at the afternoon session and the jury was sent back to the jury house out of hearing of the argument.

Attorney E. F. Richardson made the principal argument in support of the motion in a long, carefully prepared and eloquent address.

Orchard's Story the Main Point.

He took for his guide the Idaho statute that forbids conviction upon the uncorroborated testimony of an accomplice, and quoting authorities in support of his contention that there must be convincing corroboration entirely independent of the testimony of the accomplice, made an analysis of all the testimony offered. He declared that none of the testimony would stand without the support of Orchard's story and that the statute specifically forbade its acceptance under these circumstances.

He also argued that the testimony of Orchard was the only showing that in any way connected Haywood with the crime and that the statute forbade conviction under those circumstances.

Senator Borah, who alone spoke for the state, argued with like force and eloquence that Haywood's connection has been independently shown and that Orchard's testimony has been corroborated by independent circumstances and evidence. He also submitted a general argument to show that the state had established the existence of a general conspiracy in which Haywood was a participant and he strongly developed the alleged connection of Pettibone and Simpkins.

Clarence Darrow, who closed, pleaded that there was not a shred of evidence in the case capable of standing without the "rotten thread of Orchard's story" to sustain it and that the plain provision of the Idaho statute made the duty of the court clear. He ridiculed the idea of a general conspiracy and contended that if the most liberal allowance were made for the entire showing of the state it would not make out a case against the prisoner worthy of submission to the jury.

PATHETIC SCENE IN COURT

Milwaukee Clerk Sentenced to Prison by His Bosom Friend.

Milwaukee, June 22.—Frank E. Weller, for eighteen years clerk of the municipal court of this city, was brought into the court of which he had been an official so long, pleaded guilty before his bosom friend, Judge Brazee, of embezzlement of \$30,000, on which charge he was arrested Thursday, and was sentenced to three years at hard labor in the Milwaukee county house of correction.

The scene in court was sad in the extreme, surrounded as the prisoner was by friends on all sides, including the court, the prosecution and a large number of attorney friends. Many attorneys pleaded with the court for a lenient sentence. The prosecutor did not suggest a measure of punishment further than to insist that justice be meted out.

Judge Brazee said that duty alone prevented him from calling another

FOUR MEN CREMATED.

Burned to Death on a River Steamer Near St. Johns, N. B.

St. Johns, N. B., June 22.—Four men lost their lives when the river steamer Crystal Stream was burned at her dock at Cole's Island, Wassademoak lake. The dead are:

William W. Logan, fireman; Allan Logan, his brother, deck hand; Fred Smith, deck hand; Edward T. Baxter, deck hand.

It is not known whether the victims were suffocated and burned in their bunks or whether they were awakened too late to escape. Their bodies were charred almost beyond recognition.

Mate Herbert McLeary was severely burned and was brought to a hospital here. Several other members of the crew were slightly injured.

Hammond Held Incompetent.

New York, June 22.—A sheriff's jury has determined that James Bartlett Hammond, president of the Hammond Typewriter company, is incompetent to manage himself and his affairs and will so report to the supreme court. His estate is valued by the jury at \$800,000.

Alleged Women Lynchers Arrested.

Assumption, Ill., June 22.—Six women have been arrested here on the charge of being implicated in the attempt to lynch Alfred Boulard, a miner, last Monday night. Boulard was accused of being a bigamist. He was tried recently and acquitted.

Fargo, N. D., June 22.—It is reported here that a Northern Pacific freight train and a work train collided at Detroit, Minn., the engineer and fireman of one train being killed and the engineer of the other being badly injured. It is also reported that several railroad laborers were killed or injured.

A YANKEE RETORT.

Information For a Seaman on an English Man-of-war.

Just after the war of 1776 an American frigate visited England. Her crew of gallant tars had been principally recruited from the fisheries, and some of them, it is to be acknowledged, did not compare favorably in appearance with the spick and span, jaunty English naval seamen, for the former were of all shapes and sizes, from the tall, round shouldered, long armed Cape Coder down to the short, wiry members of the ship's company who hailed from various parts farther south.

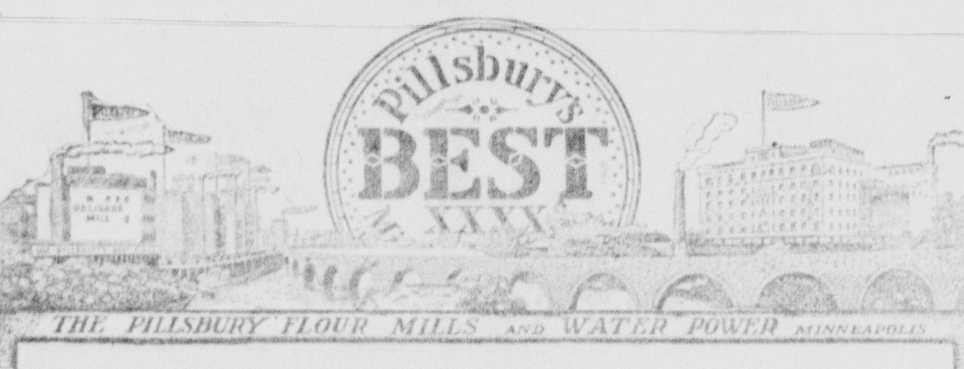

One day the captain of the American ship paid a visit to the commander of a British man-o-war at anchor in the same harbor. The cockswain of the gig was a great, lanky seaman, whose backbone was so rounded as to form a veritable hump. While the boat rested at the gangway of the visited vessel the English sailors gathered in the open ports and "took stock" in a rather disdainful fashion of the occupants of the gig. At last the seaman of the man-o-war called down to the cockswain:

"'Ello, there, Yankee! I say, what's that bloomin' 'ump you have on your back?"

The American sailor looked up and called back quick as a shot, "That's Bunker Hill!"—Los Angeles Times.

TWO KILLED IN TRAIN WRECK

Locomotive and Lidgerwood Un-
loader Wrecked Near Detroit
Last Night

SEVERAL WERE INJURED

Injured Engineer Brought to
Brainerd on a Special Train
Soon Afterward

St. Paul, June 21.—According to official information received at Northern Pacific headquarters in this city two men were killed and one seriously injured by the derailment of a work train about 6:50 o'clock tonight near Detroit, Minn.

The train consisted of a string of gravel cars, a Lidgerwood unloader and a locomotive. While unloading, the Lidgerwood got to swaying and the locomotive engineer set the emergency brakes, causing the unloader and the caboose to jump the track and go into the ditch.

Brakeman Leninen and engineer Charles Anderson were instantly killed and Engineer W. C. Greenbadgh was seriously hurt.

The reports coming from train men vary somewhat from the above. One report has three dead, while another had two dead and one missing. It is also reported, but cannot be officially verified that the accident occurred where they had the land slide a week or so ago. The wounded engineer, W. C. Greenbadgh, and another wounded man were brought to this city on a special train last night, arriving here about midnight.

M. Hayes on Friday, June 8th. He took it to the home of Peter Bissair, where he left it. Mr. Hayes saw him and told him to return it to him to avoid trouble and he did not do so and Mr. Hayes caused his arrest. The only conflict in the evidence is as to the conversation between Griffin and the boy at the time of the taking of the wheel and that between Mr. Griffin and Mr. Hayes. A motion to dismiss by Attorney Ryan for the defendant at the close of the state's case was denied and the defendant was put on the stand.

After hearing the evidence of Mr. Griffin Judge Albright discharged him, not finding any intent to steal the wheel.

CIVIC LEAGUE MEETING

Held at Commercial Club Rooms Last
Night—Action Taken as to the
Weed Nuisance

The Civic league held another very interesting meeting last night and further work was outlined. No definite action was taken as regards Gregory park as it was learned that the council was taking some steps to secure plans for its improvement. The league will doubtless give valuable assistance when the work is once started.

Mr. F. H. Gruenhagen from the Fifth ward expressed himself as anxious to see some definite action taken to exterminate the dandelions. No definite plan was suggested other than that the residents of the city should be urged to dig all out of their lawns. This however, was recognized as one of the greatest of pests and at no distant date a crusade to exterminate should be begun.

The weed problem was much discussed and a committee, composed of H. I. Cohen, J. F. McLeod and F. H. Gruenhagen was appointed to secure action from the council to have the weeds in the streets mown before they go to seed. In the past this work has not been done until the seeds have matured.

Progress was reported by all concerned in the work.

The attention of the league was called to the fact that the ladies of the Episcopal church had donated sufficient flowers for a bed at the library.

The meeting adjourned subject to the call of the president.

WILL SERVE MEALS

The Christian Endeavor Society of the
People's Church Will do so During
the Convention

The Christian Endeavor society of the People's church of East Brainerd have secured a commodious hall near the church and will serve meals during the convention next week, at a nominal charge of 20 cents. The delegates to the convention will be served free of charge. This will give the people from this city a chance to attend all the sessions of the convention, and will be especially welcome on account of the church being so far from the principal hotels of the city.

Charles McLean, of East Brainerd, Sells
His Saloon Business and Leaves

The City Permanently

Chas. McLean has sold his saloon on Kindred street, East Brainerd, to Anton Klaus and will go to Minneapolis and enter the wholesale cigar business. Mr. Klaus and family will leave for their new home in about ten days. A large number of friends in East Brainerd wish them success in their new home and business. Mr. Klaus, who succeeds him in business is a well known shop man.

RED MEN WILL HOLD CARNIVAL

City Fathers Friday Evening
Granted Them Use of Streets
for That Purpose

OTHER BUSINESS TRANSACTED

Much of Evening Devoted to Dis-
cussion of Matters on which
no Action was Taken

Brainerd will have a carnival the week commencing August 5. This was settled Friday night at the adjourned meeting of the city council when permission was given the local organization of Red Men to use portions of the streets of the city for that purpose.

R. J. Holden and Geo. Sargent appeared for the Red Men and stated that the order wished this permission, stating that they were negotiating with the Parker Amusement company to put one on. This is the same concern which pulled off the carnival for the Eagles here last year, but the attractions are all different. The pledge is made that there shall be the same clean character as that was.

Aldermen Zakariassen, Bouck, Drexler, Furcotte, Farrer, Graham, and Twohey, and President Johnson were present when the council meeting was called to order Friday evening. By motion duly made and carried a liquor license was granted to R. J. Holden, to conduct a saloon at the Ideal.

By resolution duly passed, permission was given to transfer the license of Chas. McLean, Kindred street, to Anton Klaus, the business to be conducted in same building as heretofore.

The matter of several electric light meters owned by private individuals, and which they wanted to sell to the city, came up and the electric light committee was given power to purchase the same.

Alderman Fogelstrom came in.

The request of N. D. Seavey for permission to move the blacksmith shop now standing on the site purchased for the Federal building to lots on South Second street was granted, it being suggested that the building be moved west on Maple to Fifth and then north to Laurel so as not to interfere with traffic on Sixth street and on Laurel between Fifth and Sixth.

Owing to the absence of the city attorney from the city no action could be taken on two proposed ordinances, one regulating the width of boulevards in the Second ward, and the other widening the sidewalk on the west side of Sixth street between Laurel and Maple. By an informal vote, however, Mr. Hoffman was given to understand that the latter ordinance would be passed and he could go ahead and put in a twelve foot cement walk.

Alderman Bouck brought up the subject of the official weighing and measuring of wood and coal and asked that the state law in the matter be enforced. He was requested to have an ordinance drawn by the city attorney covering the matter of city scales and city weigh master, and report at the next regular meeting.

The meeting then adjourned.

CRACKERS MUST BE SMALL

Legislature Passed Bill Prohibiting Sale
of Fire Crackers Over Three
Inches Long

It may be a cause of surprise to many that the size of cannon crackers has been curtailed by the firm hand of law, but such is the case. The last session of the legislature passed the following regarding the matter:

CHAPTER 28

An act to prohibit the manufacture, use and sale of blank cartridge firearms, certain fire crackers and certain other explosives.

Be it enacted by the legislature of the State of Minnesota:

Section 1. Every person who shall manufacture, use, sell or keep for sale within this state any blank cartridge pistol, blank cartridge revolver or other blank cartridge firearms, blank cartridges, caps, containing dynamite and firecrackers exceeding three inches in length, and exceeding one-half of an inch in diameter, shall be guilty of a misdemeanor.

Section 2. This act shall take effect and be in force from and after Jan. 1, 1908.

It will be noticed, however, that this act does not go into effect until the first day of January next, so that you can kill yourselves and your neighbors with the same old freedom the coming Fourth of July.

WAS MISINFORMED

One of the City Fathers Claims Dis-
patch Was Misinformed as to Break
on Steam Street Roller

One of the aldermen takes exception to the statement as to the cause of the breakdown of the steam street roller, given THE DISPATCH by the street commissioner. The alderman states that the real cause of the breakdown was that the engineer was ordered by the street commissioner to try to force the roller through a big fill of soft sand instead of putting in a little and packing it down, as was advised by the engineer and as the company selling the roller said must be done. The alderman seemed to think the street commissioner was prejudiced against the machine and was not trying to give it a fair chance. He spoke highly of the work it did where it had a fair show.

STORM IN MICHIGAN.

Three Persons Killed by Lightning
and Three Others Injured.

Detroit, June 22.—Specials to the Free Press tell of a severe electrical storm that raged over the lower peninsula of Michigan. At Kalamazoo, Frank Stirner was struck by lightning while climbing a tree. He was badly burned about the body. The shock left him clinging to the branches of the tree bereft of his reason.

George Hawley, a farmer, was struck by lightning and killed while plowing near Kalamazoo and Mrs. Stephen Curtiss was struck by lightning and killed while talking to her husband in their home at Onamag, Cheboygan county. Mr. Curtis was stunned, but not seriously hurt.

Frank Butler, a farmer, was killed by lightning while driving in his buggy near Buckley, in Grand Traverse county.

At Vandalla, in Cass county, Mrs. James O. Graham was thrown into Donnell's lake by a stroke of lightning. Her husband recovered her apparently lifeless body, but it was said late at night that the woman's plunge in the lake may have minimized the shock and that though she was a long time unconscious there are hopes of her recovery.

She Wasn't Engaged.

"And do you have to be called in the morning?" asked the lady who was about to engage a new girl.

"I don't have to be, ma'am," replied the applicant, "unless you happen to need me."—Yonkers Statesman.

RETAIL TRADE AND CROPS

Further Improved by Long Awaited Seasonable Weather.

New York, June 22.—Bradstreet's review of trade says long awaited seasonable weather has further improved retail trade and crops, slightly enlarged re-order business with jobbers and made for more confidence in the placing of orders for future delivery. In some sections, also, collections have responded in a measure to more favorable influences, but payments are still backward. Taking the wholesale trades generally, there is a rather more quiet tone perceptible, part of it due to the smaller than expected re-order business and also to the advance of the season of midsummer quiet. There is a disposition this year, more, perhaps, than in recently preceding years, to await clearer indications of the out-turn of the growing crops and there is less assurance as to backing ahead in many lines than was quoted at this time in 1906, but the trade situation proper unquestionably shows a more optimistic feeling than was possible a few weeks ago. Cross-currents display themselves prominently in various lines.

CAME AS A SURPRISE.

Strike of Telegraphers at San Francisco Unexpected.

New York, June 22.—The strike of the Western Union and Postal telegraphers at San Francisco came as a surprise to these companies, following as it did so close upon the supposed settlement of the differences through United States Commissioner of Labor Charles P. Neill and the subsequent statements by President Clowry of the Western Union and E. J. Nally, general manager of the Postal company.

As late as noon Deputy President S. J. Konenkamp of the Commercial Telegraphers' union gave out that there would be no strike at San Francisco, that evidently President Small had not seen the report of the settlement when he announced that San Francisco operators would quit work. The repudiation of the settlement by President Small therefore caused surprise to the union officials in this city and it was intimated that the national executive board would be called together immediately to consider that official's action. No word came from President Small except the quoted interview in which he said the strike was local to San Francisco and Oakland.

AMERICANS ARRESTED.

Accused of Conspiring to Capture Barracks in Salvador.

San Salvador, June 22.—George and Edward Moissant, American citizens, who, it is alleged, with a number of Salvadoreans conspired to capture the barracks at Sonsonate last April as a part of Potenciano Escalon's revolutionary movement, have been imprisoned and are now being tried for that offense.

Mr. Merry, the American minister, addressed a communication to the government concerning the case, threatening a cessation of diplomatic relations and demanding an indemnity for the arrest of the Moissants. The minister of foreign relations replied energetically, denying the claim and declaring it was not in accordance with international law. He has decided to refer the matter to the Salvadorean legation at Washington.

GAIN THE ASCENDANCY

Government Forces Obtain the Upper Hand in France.

GETS VOTE OF CONFIDENCE

Policy of French Cabinet Approved by the Chamber of Deputies—Mutineers at Beziers Surrender Their Arms. Rioting at Montpellier.

Paris, June 22.—Fortified by a vote of confidence in the chamber of deputies and by the receipt of assurances from its representatives on the spot that the government forces gradually are gaining the ascendancy throughout the rebellious departments in the South, the ministers are less pessimistic and incline to the belief that affairs in the wine growing region are entering a less threatening phase. The mutiny and desertion from Beziers of a battalion of the Seventeenth regiment, followed by circumstantial stories of similar defections at other garrisons, but which later turned out to be untrue, caused widespread alarm not only in official circles, but throughout the entire country.

The war office lost no time in ordering overwhelming numbers of fresh troops to the scene and in the course of the day fully a score of regiments of all arms were dispatched to Narbonne, Montpellier, Beziers and other centers or were held in readiness for instantaneous departure.

Just before the close of the chamber of deputies Premier Clemenceau was able to announce the surrender of the mutinous battalions of the Seventeenth regiment and the hearty applause that followed indicated how deep was the sense of relief occasioned by the news.

Danger of Civil War Not Averted.

It is realized on all sides that the danger of civil war by no means has completely disappeared, but those at the helm seem satisfied with the progress made toward the repression of anarchy. The ministers intend to take no chances. Martial law is now in force throughout the whole of the disturbed area and will be maintained. Premier Clemenceau announced, until the sovereignty of the law is assured and normal civil life can be resumed.

The vote in the chamber of deputies, it is believed, will be sure to have considerable effect on the malcontents, who apparently expected that the government's repressive measures would not be approved by parliament. The decision of the chamber to break standing rules and hold a session today with a view of expediting the passage of the wine frauds bill it is hoped will assist in the work of conciliation.

Although apart from the mutiny in the Seventeenth regiment no serious outbreaks were reported up to midnight, the number of cases of tearing up of railroad tracks, cutting down of telegraph poles, seizures of officials who are held as hostages, kidnapping of isolated police and gendarmes justified the belief that the militant populace might if leaders were forthcoming be organized to carry on guerrilla warfare.

DISPERSED BY TROOPS.

Mob at Montpellier Grew Ugly and Used Revolvers.

Montpellier, France, June 22.—What promised to be another ugly riot broke out here Friday evening, but the vigorous charges of the troops, which drove the mob from place to place, finally resulted in a semblance of order being restored. The crowd again used revolvers, but although a number of persons were slightly hurt no fatalities have been reported.

The mob erected a barricade shortly before midnight, but the troops demolished it after a sharp struggle. Calm was then restored.

Peasants tore up railroad tracks in numerous places and the One Hundred and Forty-second regiment en route for Beziers was unable to proceed beyond Paulhan. Besides tearing up the rails there the peasants sacked the station. Sub-Prefect Leuller arrived from Lodève to investigate the trouble and was captured by 400 peasants, who held him as a hostage and locked him in the town hall.

At Campagnan station the railroad track was demolished and the telegraph wires were cut and a locomotive was overturned. The stations at Saint Pargoire and Villeverac also were wrecked. In consequence of these acts, which seem to indicate an uprising in the country around Paulhan, the Fifty-fifth and Seventy-seventh infantry, the Second engineers and the Nineteenth dragons have left for that place to preserve order and repair the railroad tracks.

The railroad company has given notice that communication has stopped between Narbonne and Perpignan.

GIVE UP THEIR RIFLES.

Mutineers Promise to Return to Their Quarters.

Beziers, France, June 22.—Accompanied only by a staff officer and an orderly, General Bailoud arrived here and approached the mutineers of the Seventeenth regiment, exhorting them to return by rail to Arde. He promised the men that they would be treated with all possible leniency. After a flight hesitation the soldiers surrendered their rifles and ammunition and promised to return to their quarters.

TELEGRAPHERS ON STRIKE

Western Union and Postal Telegraph Company Employees Quit.

San Francisco, June 22.—Strike-riden San Francisco had another strike added to the list when the telegraph operators employed by the Western Union and Postal Telegraph companies left their keys and walked out of the offices. Three short blasts from a police whistle gave the signal and at the sound the operators arose from the tables, put on their coats and quit their jobs.

Both the Postal and Western Union main San Francisco offices are located close together in the Ferry building. Since the fire the main relay office of the Western Union has been at West Oakland, where about 150 men and women are employed, and at outside branch offices there are twenty more. The Postal company has sixty operators in the main San Francisco office. Employees of both companies with the exception of one in each office stopped work at the signal.

The operators in San Francisco were dissatisfied with the letter from President Clowry of the Western Union published Thursday and insisted that their demands for a 25 per cent increase in wages should be granted.

President Small of the Commercial Telegraphers' union arrived here Thursday and after considering the situation ordered the strike unless the increase was granted. Both the Western Union and Postal officials declined to grant the increase or to consult with the union. They expressed their willingness to consider and act upon any advances presented by their employees as individuals but this did not satisfy the men and the walkout resulted.

Remarkable Rescue

That truth is stranger than fiction has once more been demonstrated in the little town of Fedora, Tenn., the residence of C. V. Pepper. He writes: "I was in bed, entirely disabled with hemorrhages of the lungs and throat. Doctors failed to help me, and all hope had fled when I began taking Dr. King's New Discovery. Then instant relief came. The coughing soon ceased; the bleeding diminished rapidly, and in three weeks I was able to go to work." Guaranteed cure for coughs and colds. 50c and \$1.00, at H. P. Dunn & Co., drug store. Trial bottle free.

Boilermakers on Strike.

Winona, Minn., June 22.—Boilermakers in the Winona shops of the Chicago and Northwestern railroad have struck because of an order doing away with helpers. A conference will be held in Chicago to consider the dispute.

He Fired the Stick

"I have fired the walking-stick I've carried over 40 years, on account of a sore that resisted every kind of treatment, until I tried Bucklen's Arnica Salve; that has healed the sore and made me a happy man," writes John Garrett, of North Mills, N. C. Guaranteed for piles, burns, etc., by H. P. Dunn & Co., druggists. 25c.

Reduce Your Fat

Costs Nothing to Try

Rengo, one of the most delicious products of the land, is now declared by scientists to be Nature's own marvelous cure for obesity or excess fat.

This Illustration Plainly Shows What Rengo Has Done.

Rengo does more than reduce the weight and get rid of the fat. It does all this without weakening the patient, or otherwise working him harm and it positively builds up the health, giving increased strength and vitality. It brings almost immediate relief from the dangers of fatty degeneration of the heart and other fatal conditions which nearly always accompany excess fat. There is nothing "just as good" as Rengo. For sale by all druggists at \$1.00 per full sized box, or by mail prepaid by The Rengo Co., 3073 Rengo Bldg., Detroit, Mich. If you prefer, they will package free by mail. For sale and recommended in Brainerd by H. P. Dunn & Co., Druggists.
